About Us

Goodluck India Group is a manufacturer and exporter of wide range of ERW Hot Dip Galvanized Pipes, Black Pipes, Black & GI Hollow Sections, CR Coils, CRCA, Galvanized Plain & Corrugated Sheets, ERW Precision & CDW Tubes, Power & Telecom Towers, Solar Structures, Forged Flanges and Custom Forgings. The company was established three decades ago.

With our innovative and progressive approach, the group today is one of the leading and fastest business groups in the Steel Industry. An ISO-9001, AS 9100D, IATF-16949, ISO-14001 & OH&SMS-45001 & CE certified organization, Goodluck India Group operates under five verticals; Goodluck India Limited, Goodluck Industries, Goodluck Engineering Co., Goodluck Metallics & Goodluck Infra.

**450
Customers**

Customers spread across the world.

**100
Countries**

Customers served globally across all business verticals

**3500+
Workforce**

A motivated and talented team powering growth

**35
Years**

Over three decades of consistent growth and progress

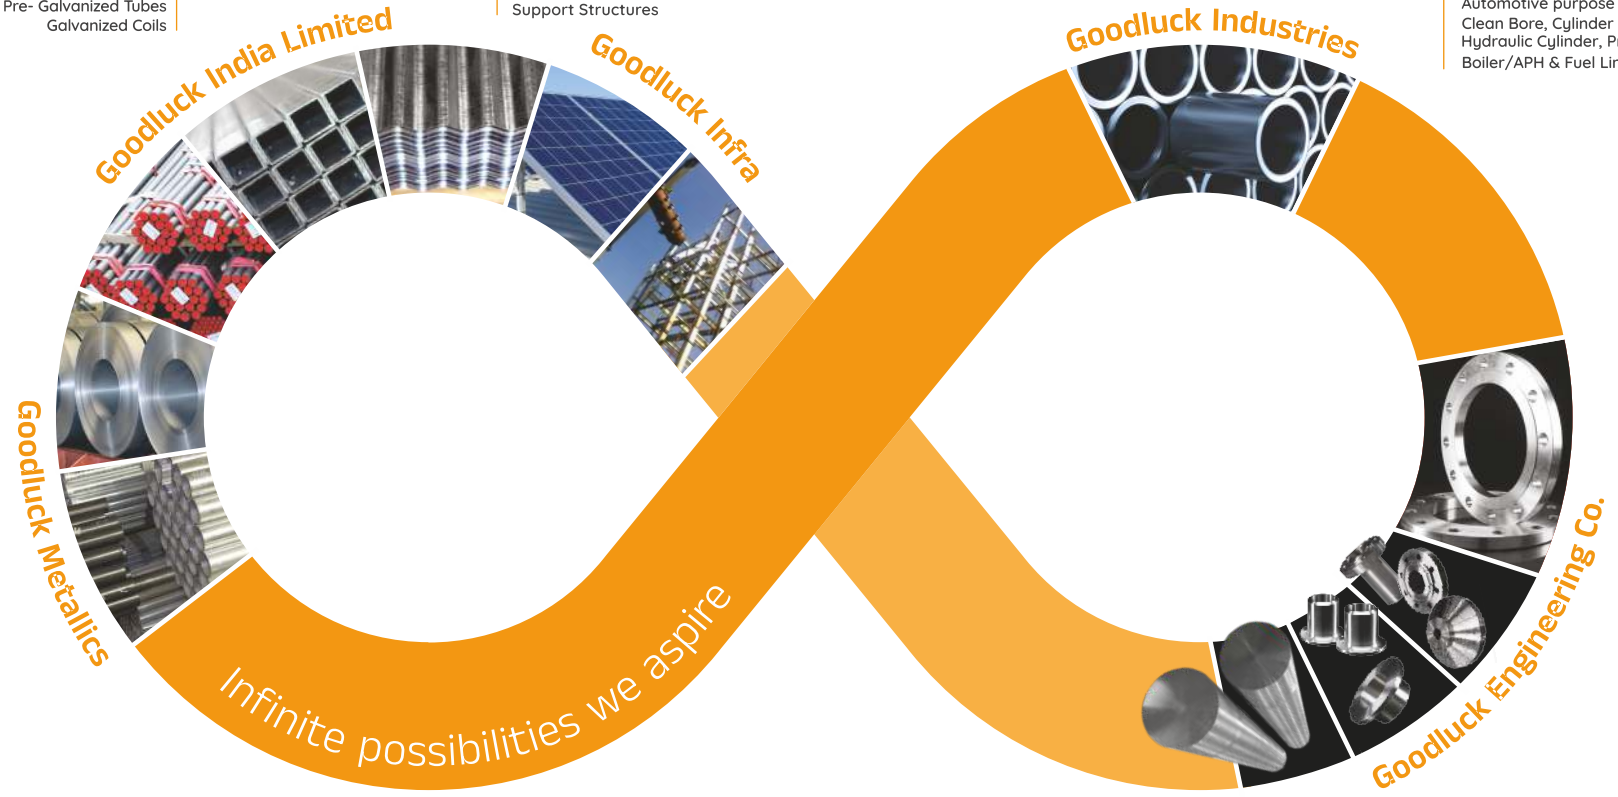

A versatile business group with **strong foundation**

ERW Black/Painted Galvanized Pipes & Tubes (Rounds & Sections)
Pre-Galvanized Tubes
Galvanized Coils

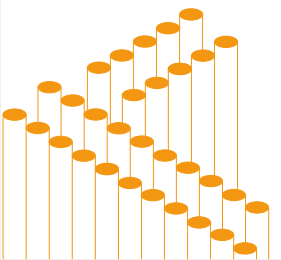

Transmission & Telecom Towers
Fabricated Steel Structures
Railway/Road Bridges
Support Structures

ERW - Round, Square & Section Tubes
CDW - Tubes specially for Automotive purpose
Clean Bore, Cylinder Bore, Hydraulic Cylinder, Profiles Tubes
Boiler/APH & Fuel Line Tubes.

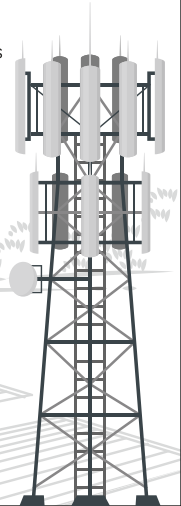

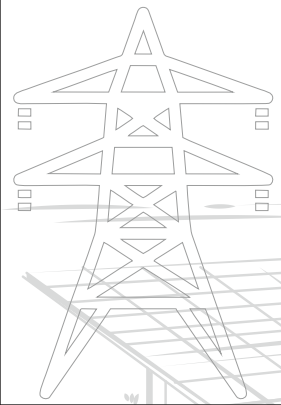

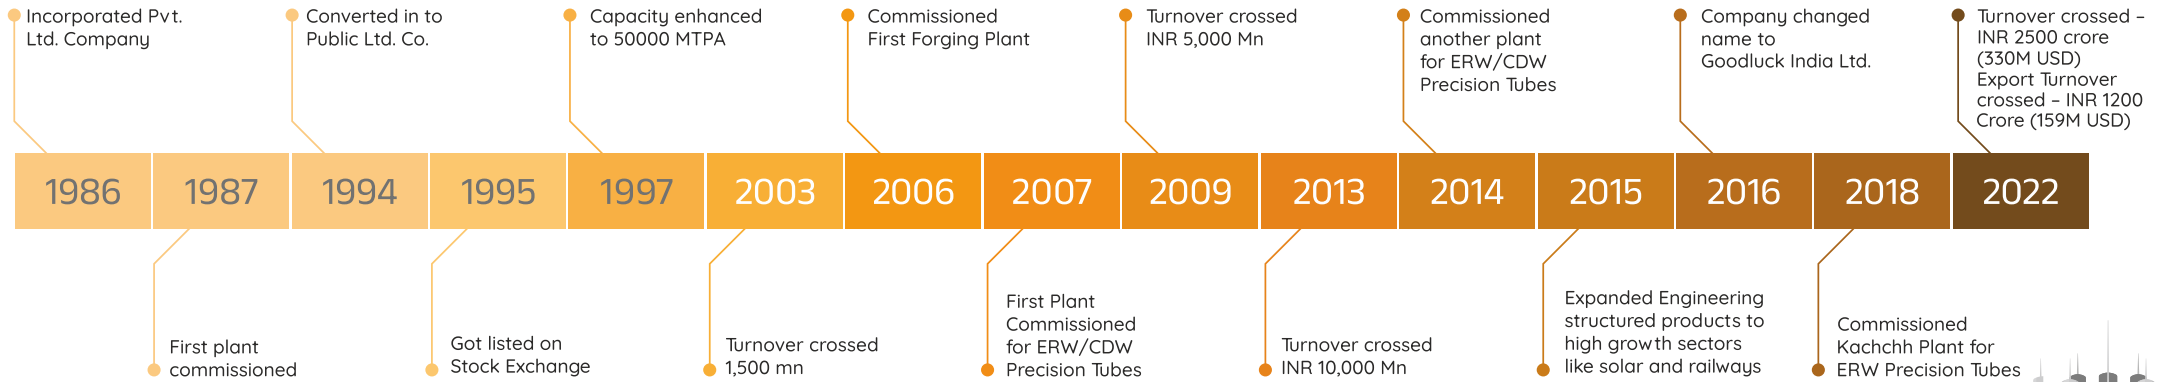

Infinite possibilities we aspire

Flanges
Forged Bars
Stubends/Collars
Custom Forgings

SOLAR MOUNTING STRUCTURE

Goodluck India Group is one of the largest manufacturer and exporter of steel parts for solar structures, fix tilt, and tracker in India. We offer a wide range of mounting solution for all types of solar projects

- Ground Mount System
- Carport
- Solar Tracker Parts

- ✓ Started in 2010, 12 years' experience.
- ✓ 14 GW supply
- ✓ Production: - 5000 MT/month
- ✓ Galvanization: - 4500MT/month
- ✓ In house designing
- ✓ Fully Automated high speed machine with facility of pre punching.
- ✓ Top five buyers of steel in India.

GROUND MOUNTED SYSTEM

Goodluck India offer effective and economical ground mount system which suits to any condition. The mounting structure can be fabricated in pre-galvanized/hot dipped galvanized as per the design requirement and approval. Apart from that, we can design the mounting structure with foundation of concrete Pile/ rammed/ ground Screws as per tilt and panel arrangements. The equipped production facility with in house galvanizing unit, permit us lesser turnaround time with quality control under one roof & dispatch within timeline.

CAR PORT

We offer the solution with design and fabrication for everything from individual to large carport complexes that's not only fits into your establishment and business but also into your budget and value your aesthetic preferences. Our engineering team, design the system to ensure the full utilization of space for parking and guaranteed for longest and trouble free functionality. We can also manufacture the system as per your proposed design with specified material need for your projects.

Optimal Solution for Car port

- ✓ Aesthetic Design
- ✓ Trouble Free Functionality
- ✓ Personalized Design with Specified Material
- ✓ Reduced Energy Expenses
- ✓ More Efficient Use Of Space
- ✓ Protection From The Elements

SOLAR TRACKER PARTS

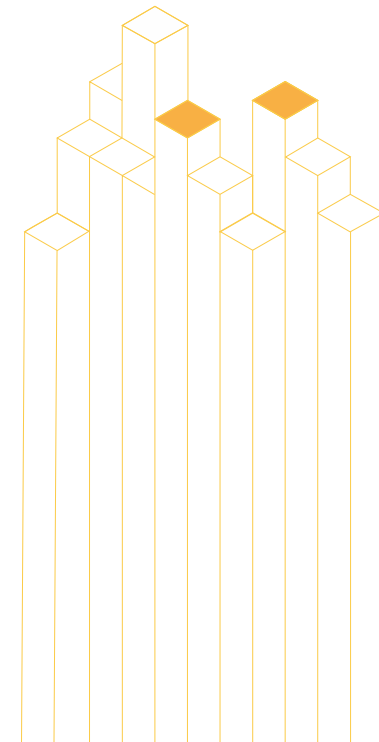

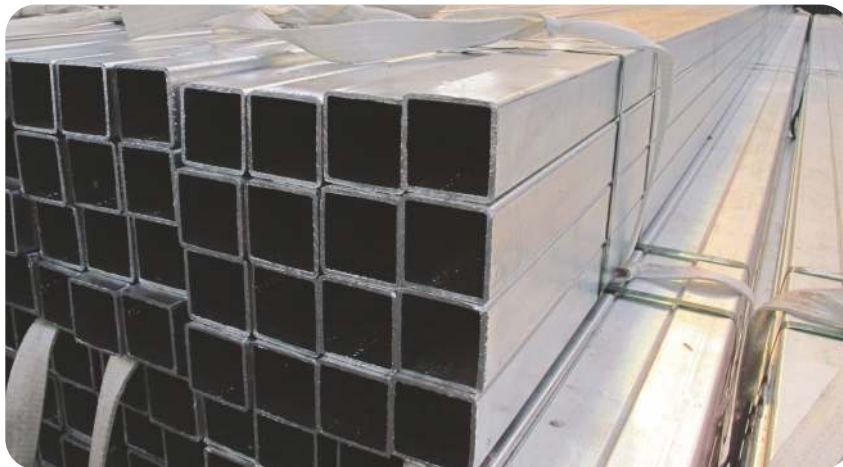

Torque Tubes

We are involved in manufacturing the torque tubes, purlins, rails and other components to meet the tracker industry needs. Our advance and modernized technical rolling mills enable us to fabricate the full range of rectangular/square/ round tubes from the half to ten inches required in the industry.

TYPICAL STANDARD REFERENCES	EN 10219/EN 10346/ASTM A500 ASTM A653 ASTM A123
PROTECTIVE COATING	Pre Galvanized/ Hot Dip Galvanised
TWIST	Less than 0.5 Degree Across Length
BOW/CAMBER	Less than 5mm across length
TUBE MILLS CAPACITY	20mm SHS to 200mm SHS or 15NB to 250NB
CAPACITY	120,000 MT Annual

Fabricated Components/ Clamps

Not even restricted us in torque tubes, we are also producing the complex components like transition shafts, bearing heads, clamps etc. used in the solar trackers.

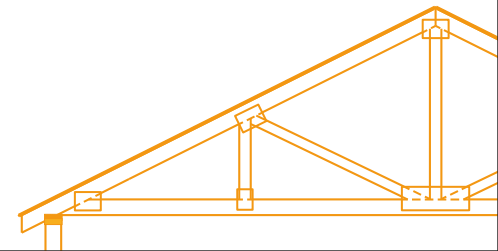

WHY GOODLUCK SOLAR MOUNTING SOLUTIONS

Being a part of the conscious society, Goodluck India Group ensures that the necessary steps are taken to protect the environment while effectively delivering the product. We intend to introduce newer ideas and implement new technologies. Wondering what's so special about us?

- ✓ Availability of the raw materials as per the specifications
- ✓ Internal machinery of CNC based cold forming
- ✓ Technology back-up for tracker solutions
- ✓ Internal galvanizing facility
- ✓ Fully developed logistics support
- ✓ Manpower for erection and site reconciliation of material

CSR

Rain water harvesting at all factories and offices.

Procure 20% of power from renewable sources.

Goodluck led by innovation research with corporate social governance.

Goodluck support local schools, runs cancer hospital for the lower income society.

Goodluck is the first company to get EDP certificate for its steel products.

Goodluck Metallics is the zero liquid discharge plant.
